

Adjunct and Visiting Appointments - Operational Policy

1. Purpose of policy

1.1 Adjunct and Visiting appointments enable the University to confer titles of recognition to acknowledge the collaborative contributions made to teaching, research, engagement and professional leadership by individuals who are not employed by the University. Such contributions enrich the student experience while advancing the University's Learning and Teaching, and Research goals. This policy sets out the conditions of appointment and mutual obligations of Adjunct and Visiting Appointees at the University.

2. Policy scope and application

2.1 This policy outlines the types of appointment that may be granted to an individual in recognition of their association with, or contribution to, the University, and the purpose, criteria and general conditions related to Adjunct and Visiting Academic and Professional appointments. Current staff are not considered for appointment under the terms of this policy.
