

Bachelor of Environmental Management

LOCATION	START
Sunshine Coast	Semester 1, Semester 2
Moreton Bay	Semester 1, Semester 2

Learn to minimise human impacts on the environment, manage resources sustainably, and conserve and restore habitats, biodiversity and ecosystem services. Choose a minor to specialise in such as coastal and marine environments, urban design and town planning, global environmental security and policy, geospatial analysis, and sustainability.

In this program you will:

- Learn the skills and strategies to manage environment issues at local, regional and global scales
- Develop the ability to communicate complex information to inform and engage stakeholders
- Participate in lab and field work
- Obtain specialist knowledge aligned to your interests in environmental management
- Complete a work placement or advanced research project to jump start your career

Career opportunities

- Environmental assessment and protection (air, water, land)
- Natural resource management
- Sustainable procurement and corporate stewardship
- Environmental education
- Policy and legislation development
- Research and development of environmental technologies

Program structure
