Place management roles firmly in your sights with this program. Meet the increasing demands of doing business in today's world. This program is skills-focused, offering practical work experience to build your management knowledge and problem-solving capabilities.

In this program you will:

- Explore current business issues and learn key functional areas of an organisation. Learn the theory but concentrate on how it is used practically in business
- Choose what interests you most from courses in decision-making, economics, marketing, management, law, ethics or informatics
- Have the opportunity to later upgrade your study to the Master of Business Administration

Career opportunities

- Management positions in government
- Business across a diverse range of industries
